

GRADUATE RESOURCES

*Resources to help find funding, write grants, and
build a stronger professional presence*

GOOD MORNING ALL-

Or afternoon/evening (depending on time zone!)

We hope that you and your loved ones are healthy and well. First, congratulations to those of you who have completed your thesis or dissertation! That is a significant achievement and one that you should be very proud of. For those of you currently working on your research, we wish you the best of luck and that you finish strong (we know it's difficult, but you've got it!). Finding resources as a graduate student, especially during such an isolating time, can be extremely difficult, time consuming, and exhausting. In order to ease some of the pressure of doing all the work yourself, we have compiled resources for you in a shared folder. The umbrella categories include funding and professional development. The next page will describe what you will find in these folders. In addition, we are asking for your help! Please send any successful grant, scholarship, academic, etc. application materials to us. We would love to have a substantial collection of examples to help prospective applicants. We hope these resources help in developing your academic and professional careers. Have a safe rest of your week.

[CLICK HERE FOR ACCESS TO THE SHARED FOLDER "GRAD_RESOURCES"](#)

This folder contains the following resources:

Funding:

- Finding Funding Opportunities
- Writing Successful Grants
- Grant Review Process
